Mabalacat, Pampanga | +63 948-186-6935 | adriananunciacion80@gmail.com | github.com/adrianm16

Summary

Fourth-year BS Information Technology student with a focus on front-end web development and hands-on IT experience. Experienced in building responsive, user-focused websites and supporting technical operations, with a strong foundation in web development and practical IT skills.

Education

Bachelor of Science in Information Technology

Holy Angel University - Angeles City, Pampanga

Relevant Courses: Web Development, UI/UX Design, Database Systems

Work Experience

Endpoint Support Intern

July 2026 - October 2026

Cloudstaff (On-the-Job Training)

- Assembled, disassembled and maintained desktop PCs and laptops for the endpoint and hardware team.
- Installed Windows and Ubuntu Linux, and built a sample AI automation workflow for routine tasks.

Projects

HAU Taekwondo Team Website | adrianm16.github.io/HAUTKDwebsite

- Built a fully responsive website for the HAU Taekwondo Team with training schedules, team profiles and a media gallery.
- Optimized load times and the experience on both mobile and desktop.

Brew Haven – Coffee Shop Web Application | adrianm16.github.io/BrewHavenCoffee

- Built a coffee shop web app with an interactive menu and ordering system using HTML, CSS and JavaScript.
- Used reusable components to keep one consistent design across every page.

Pilipinas Ngayon – WordPress News Website | avoiceofthenation1.wordpress.com

- Launched a categorized Filipino news site on WordPress and Elementor with responsive layouts.
- Designed custom navigation to help readers find articles faster.
