adriananunciacion80@gmail.com | github.com/adrianm16

OBJECTIVE

Motivated fourth-year BS Information Technology student specializing in Front-End Web Development and UI/UX Design. Proficient in HTML, CSS, JavaScript, and WordPress, with a solid portfolio of fully deployed web projects showcasing end-to-end development from wireframes to live deployment.

EDUCATION

Bachelor of Science in Information Technology

Expected Graduation: 2027

Holy Angel University - Angeles City, Pampanga

- Relevant Courses:** Web Development, UI/UX Design, Database Systems

WORK EXPERIENCE

IT Support Intern (On-the-Job Training)

July 2026 - October 2026

Cloudstaff

- Assembled and disassembled desktop PCs and laptops for the endpoint and hardware team.
- Cleaned and maintained computer hardware as part of regular device upkeep.
- Installed Windows and Ubuntu Linux operating systems on desktop PCs.
- Built a sample AI automation workflow to explore automating routine tasks.

PROJECTS

HAU Taekwondo Team Website

adrianm16.github.io/HAUTKDwebsite

- Engineered a fully responsive website for the HAU Taekwondo Team, featuring training schedules, team profiles, and media gallery optimized for mobile and desktop users.
- Optimized web performance for fast load times and improved user experience across all devices.

Brew Haven – Coffee Shop Web Application

adrianm16.github.io/BrewHavenCoffee

- Built a dynamic coffee shop web app with interactive menu and ordering system using HTML, CSS, and JavaScript.
- Implemented reusable components to maintain a consistent design language, enhancing visual appeal and usability.

Pilipinas Ngayon – WordPress News Website

avoiceofthenation1.wordpress.com

- Launched a categorized Filipino news platform using WordPress and Elementor with responsive layouts and structured content taxonomy.
- Designed custom navigation features to improve reader engagement and content discovery.
